VOLUME 29

AKKOUCHI, M ., Sur certaines algebres associees á une mesure de Guelfand 129

BAJPAI, S D., Orthogonal properties for a tipical class of hypergeometric functions 171

BOOK REVIEWS 197

BOOTH, G. L., VELDSMAN, S., Special radicals of near-rings and Γ-near-rings . 113

BRIDEN, W., YHANG, S., Stability of solutions of generalized logistic difference equations 81

CLAY, J. R., YEH, Y.-N., On some geometry of Mersenne primes 139

DEÁK, J., Spaces from pieces II 1

DEÁK, J., Spaces from pieces III. 89

DEÁK, J., Spaces from pieces IV. 245

DEFEVER, F., DESZCZ, R., Some results on geodesic mappings of Riemannian manifolds satisfyiing the condition $R.R = Q(S, R)$ 267

DRAGOMIR, S. S., SÁNDOR, J., On Bessel's and Gram's inequalities in prehilbertian spaces 197

DUFNER, G., Binäres Goldbachproblem in kurzen Intervallen 213

FERRER, J., LÓPEZ-PELLICER, M., Algebras of sets generating non-barrelled spaces 207

KAKOL, J., Hahn–Banach extension property for Banach spaces over non-archimedian fields 161

KHAN, M. A., Bibasic analitic functions and discrete "bibasic" hypergeometric series 39

KINUKAWA, M., Inequalities related to smoothness conditions and Fourier series . 51

KISS, B., MOLNÁRKA, G., RAHMAN, N. A. A., A circulant preconditioner for domain decomposition algorithm for the solution of the elliptic problems 67

LUČIĆ, Z., MOLNÁR, E., STOJANOVIC, M., The 14 infinite families of isotoxal tilings in the planes of constant curvature 179

NAOUM, A. G., On the ring of endomorphisms of a multiplication module 277

SMITH, P. F., Multiplication modules and projective modules 165

VECCHIA, B. D., MASTROIANNI, G., VÉRTESI, P., Weighted L approximation by modified Hermite interpolation of higher order 27
